

- Advanced Systems Managers
- Aerospace Technicians (Solder, Paint, Clean, RF, Mech, Test)
- Analog/Digital Design Engineers
- Business Development
- Capture Manager
- CNC Machinist
- Configuration and Data Management
- Contracts
- Cryo Engineering
- Detector Design and Test Engineers
- EEE Parts
- Electrical Design Engineers
- Electrical Harness Design Engineers
- Electrical Project Engineers
- Electrical Systems Engineers
- Embedded Software Engineers
- Facilities Project Planners
- FPGA Design & Verification
- Government Relations
- Ground Software
- Ground System Engineers
- Hardware Quality Engineer
- Information Assurance
- Information Systems Security Engineers
- Integration & Test Engineers
- Integration & Test Technicians
- Launch System Integration
- Manufacturing Assembly and Test Operations (Technicians and Managers)
- Manufacturing Engineers and Operations Managers
- Mechanical Design Engineers
- Mechanical Engineers
- Mechanisms or RF focused – 5-15 years experience.
- Mission Assurance Inspectors, Engineers and Managers
- Mission Concept of Operations Leads
- Mission Integration & Verification
- Mission Ops
- Mission System Integration Leads
- Mission Systems Engineers
- Network Administrators
- Optical Engineers
- Principal Systems Assurance Reliability Engineers
- Program Managers
- Program Security
- Project Controls (Cost Estimating, Scheduling)
- Project Engineers
- Proposal Manager
- Quality Control Inspectors

- Radiation Effects – Systems Engineering
- Reliability Engineers
- Requirements Allocation, Verification, and Validation Leads
- Requirements Database Administrator
- RF Antenna Engineers (Low Observable and Phased Array)
- RF Project Engineer (Survivability and Strike)
- Simulation Architects (vehicle, mission)
- Simulation Software Engineers
- Software Configuration Management
- Software System Engineering
- Spacecraft Bus Flight Software
- Spacecraft/Instrument Test Engineers
- Spacecraft/Lead System Engineers (instrument, bus, spacecraft)
- Sr. Manager/Supply Chain
- Sr. Project Engineer/Mission Assurance
- Strategic Development
- Structural Engineers
- System Engineering CONOP Leads/support
- System Engineering Interface Management (ICD's, IRD's, External Interfaces)
- System Engineering Project Engineers
- System Engineering Requirement Management (Allocation and Verification)
- System Engineering Risk Management
- System Engineers (GN&C, CD&H, ADCS , EPS, FM, Thermal, RF)
- System Integration & Test Lead
- Systems Administrators
- Systems Engineering – Controls, Electrical Systems, Propulsion
- Systems Engineering – System Analysis
- Talent Acquisition Specialists
- Telecommunication Subsystems
- Test Engineers and Conductors
- Thermal Engineering
